

RIDE-ON SCRUBBER DRYERS.

70 LITRES

ERGONOMIC. EFFICIENT. AND EXCEPTIONALLY COMPACT.

ARA 66|BM70

- With a capacity of 70 litres, this ride-on scrubber dryer from columbus can perform efficient operations, even – and especially – in hospitals, supermarkets and other small buildings even with cramped and heavily-furnished areas.
- Whether the operator is just 155 cm or 195 cm tall, the long seat allows everyone to find the right position to work fatigue-free and relaxed.

- An extremely small turning circle of just 1.65 m.
- Fast, easy and hygienic changing of brushes and pad holders: the brushes and pad holders do not only spin-off with the press of a button, they also spin-on automatically.
- Fresh water can be filled up in an instant – via the integrated, industry-standard system connector or via the large filling opening.
- HACCP hygiene standards: the solution and recovery tank have inspection openings and can be thoroughly cleaned, the lid seal can be removed without tools.
- Robust mechanics instead of electronics: simple operating switches to turn the machine on and off and for forward and backward movements. Mechanical lowering of brushes and squeegee.
- Powerful traction motor and rear-wheel drive allow scrubbing on inclines of up to 12%.
- Optional: silent-version that operates at only 59 dB(A) and a security-kit for advanced security when used in facilities that are open to the public.
- Environmentally friendly: the optional chemical dosage provides for a consistently high cleaning level with a low consumption of cleaning products. The 8 litres chemical tank can be removed without tools.
- A faster clean: the area covered every hour is up to 600 m² larger compared to the performance of walk behind scrubber dryers of the same size.

With small operator

With tall operator

Pull-out filter for large debris

Emergency stop button

- Operators can act quickly and flexibly thanks to a low step height, an open cockpit on both sides and a spacious footwell.
- Just 138 cm long and 85 cm wide, the ride-on scrubber dryer fits into all standard lifts and can easily negotiate narrow check-out areas.

- **Easy service:** the seat can be lifted up to provide free access to batteries and components.
- **The arch-shaped squeegee tool with patented mounting system adapts actively to the movements of the machine and will perfectly pick up without leaving any waste water even on tight turns.**

ARA 66BM70

L x W x H in mm	1380 x 680 x 1170
Working width	660 mm
Suction width	850 mm
Theoretical coverage max.	3960 m ² /h
Noise level	63/59* dB(A)
Empty weight	211 kg
Operating weight (180 Ah 5)	405 kg

BATTERIES/ELECTRICAL DATA

Rated voltage	24 V
Power max.	2240 W
Number of batteries	4
Capacity wet	200 Ah 5
Capacity dry	180 Ah 5

TANK

Solution tank capacity	70 l
Recovery tank capacity	80 l

SUCTION

Low pressure max.	110 mbar
Air flow max.	32 l/s

TRACTION

Power max.	750 W
Speed max.	6 km/h

BRUSHES AND PAD HOLDERS

Number	2
Speed	180 rpm
Brush pressure	40 kg

*silent version, optional.
