Disinfection

### septLIQUID SENSITIVE

Hand disinfection

**Product name:** septLIQUID SENSITIVE

**Product range:** washroomHYGIENE | Disinfection

#### Product description:

Prepared, alcoholic hand disinfection. Effective against bacteria, yeasts, enveloped viruses and noroviruses. Particularly skin-tolerant and lipid balancing. Coloring- and perfume-free.

#### Packaging unit:

6 x 700 ml

Art.-No. 4110705804

#### pH value:

neutral

#### Field of application | use:

Alcoholic liquid for the hygienic (EN 1500) and surgical (EN 12791) hand disinfection in hygienic-relevant areas such as health care and meal production. Impregnated with wool wax, therefore it's especially suited for the frequent application on particularly sensitive and dry skin. Colour- and perfume-free. ÖGHMP and VAH listed.

#### Dosage:

Apply the ready-to-use hand disinfection on clean and dry hands and ensure full moistening throughout the whole residence time. Residence time according to EN 1500: 30 sec.; according to EN 12791: 90 sec.; limited virucidal: 15 sec.; Rotavirus: 15 sec.; Norovirus according to EN 14476: 60 sec.

#### Safety information:

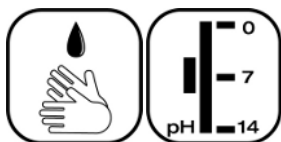

Apply the disinfectant safely. Always read the label and product information before use. Keep away from fire - don't smoke.

#### Storage:

Keep container closed. For quality reasons, store at room temperature.

#### Product recommendation:

With the dermaPROTECT System HAGLEITNER offers an innovative solution for all kinds of working areas. Consisting of handPROTECT and handCREAM dispenser.
