

Power Clean 12

Surface cleaner and degreaser

Technical data

Power Clean 12 is strong alkaline cleaner and degreaser for cleaning moderately to heavily soiled water-resistant surfaces in commercial kitchens, the food industry and other industries. **Power Clean 12** can be used on worktops, walls, doors, floors, ovens, and all kitchen appliances and utensils. Product can be used manually or with floor cleaning machines.

It is formulated for sanitary room cleaning in food industry, kindergartens, schools, hospitals, garages, workshops, production areas, etc.

Instruction for use

Prepare a 10% solution by adding 800 ml **Power Clean 12** of concentrate to a bucket of 8L of water. Clean the surface with cloth (worktops, surfaces etc.) and rinse with water. **Floor cleaning:** clean the floor with a mop or floor cleaning machine. For heavily soiled floors use **Power Clean 12** undiluted. Rinse after cleaning.
