

## Sator CLEANER DISINFECTANT FOR SANITARY AREAS

**Sator** is a cleaner disinfectant for sanitary areas, based on a powerful combination of surfactants and active chlorine. The special formulation of **Sator** cleans, disinfects, deodorizes and bleaches in one step. **Sator** is removing efficiently the moulds, mould spots (*aspergillus niger*) dirt, fat and soap residues. In addition, **Sator** is maintaining the drains clean and it is ideal for cleaning of acid sensitive materials like enamel and grouts.

**Application area:** for all water and alkali resistant surfaces and floorings like enamel, stone, plastic, stainless steel, ceramic materials, etc.. It can be used on walls, floors, sinks, bathtubs, shower cabins, drains, in bathrooms and public sanitary areas in schools, elderly homes, hospitals, sport halls, wellness and swimming pools.

Bactericidal acc. to EN 1276 at 2.5% - 5 min. and EN 13697 at 5% - 5 min. at 10°C under dirty conditions

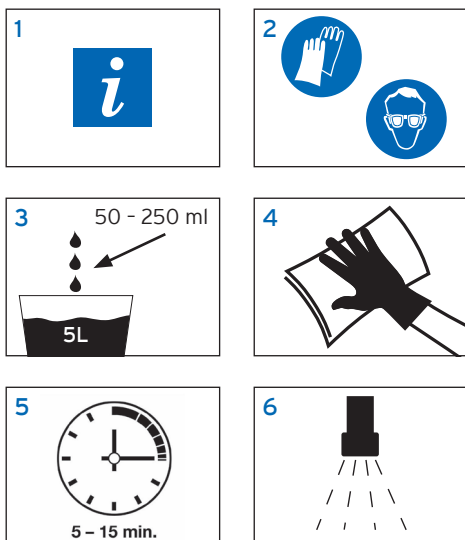

Yeasticidal acc. to EN 1650 - 1% - 15 min. at 10°C under dirty conditions

Fungicidal acc. to EN 13697 - 3% - 15 min. at 20°C under dirty conditions

- **Performance** Easy removal of dirt, fat, soap residues and mould spots.
- **Efficiency** Cleans, bleaches, deodorizes and disinfects in one step.
- **Safety** Proved disinfection properties according EN norms for a safe sanitary area.
